Festivals, gala concerts, and tours of the individual band require today the application of more and more electronic equipment. Small hire and leasing companies therefore cannot meet the ever increasing international standards in the field.

That is why DYNACORD has founded the "DYNACORD CONCERT SERVICE GMBH" (DCS) as of 1 January 1978.

The new DCS company is in a position to render respective services for all kinds of events and of any size due to full availability of suitable equipment, its technical know-how, and an very high degree of flexibility.

We can offer you the following:

- 1.) Servicing any kind of musical performance e.g. tours of bands or artists, festivals, individual concerts, etc.
- 2.) Servicing gala concerts and musical conventions
- 3.) Sound and light effects equipment for products and sales promotional events by manufacturers, industries, during trade fairs, and the like.
- 4.) Sound Distribution Systems for congresses, meetings, etc.

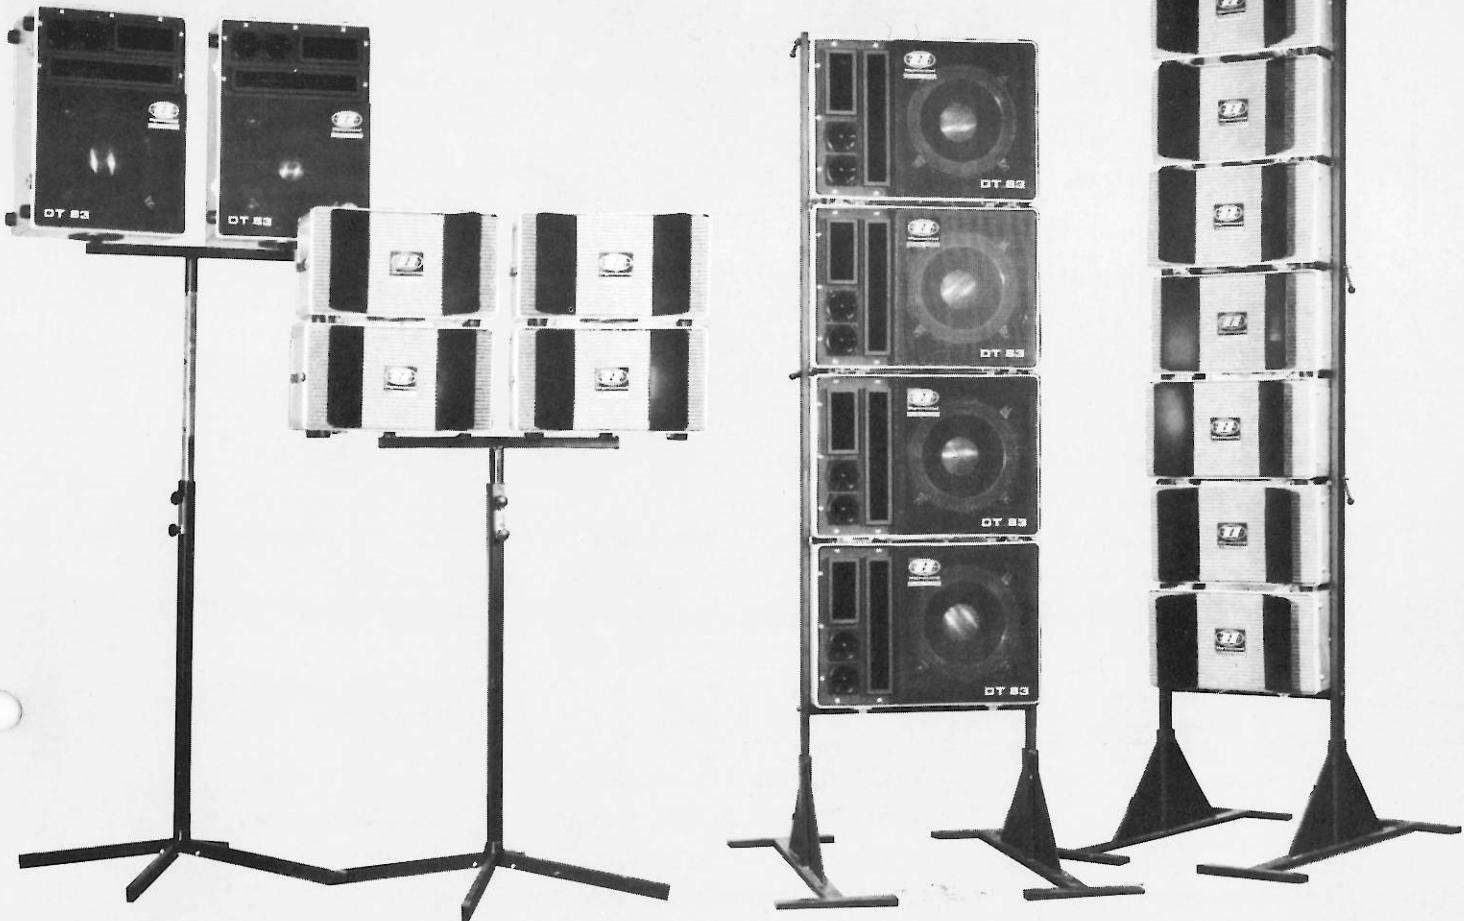

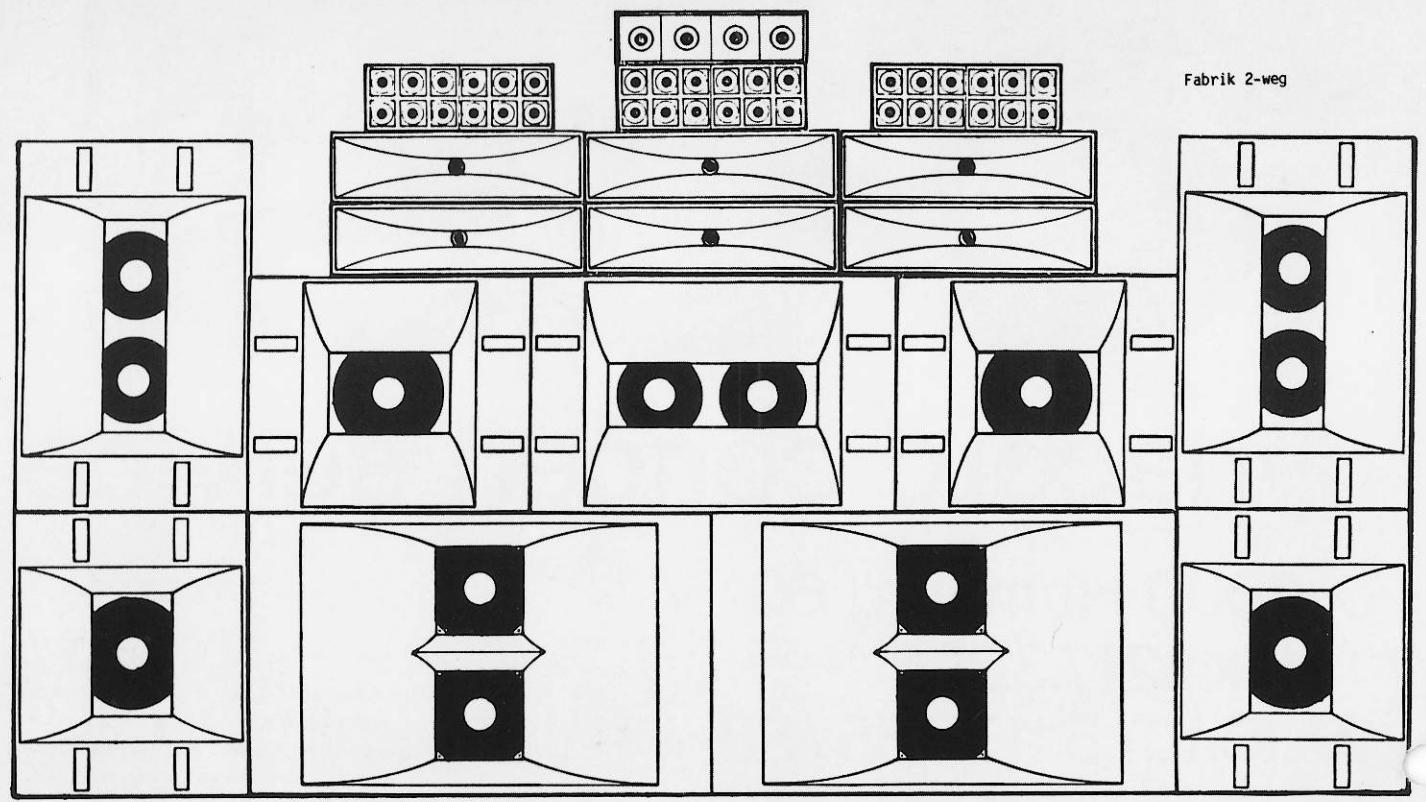

For details please see our catalogue or give us a call. We should be glad to give you prices, complete quotations, and any further information you might desire.

Due to our long standing experience in this special field we can guarantee expert advice and performance of required services to your best satisfaction.

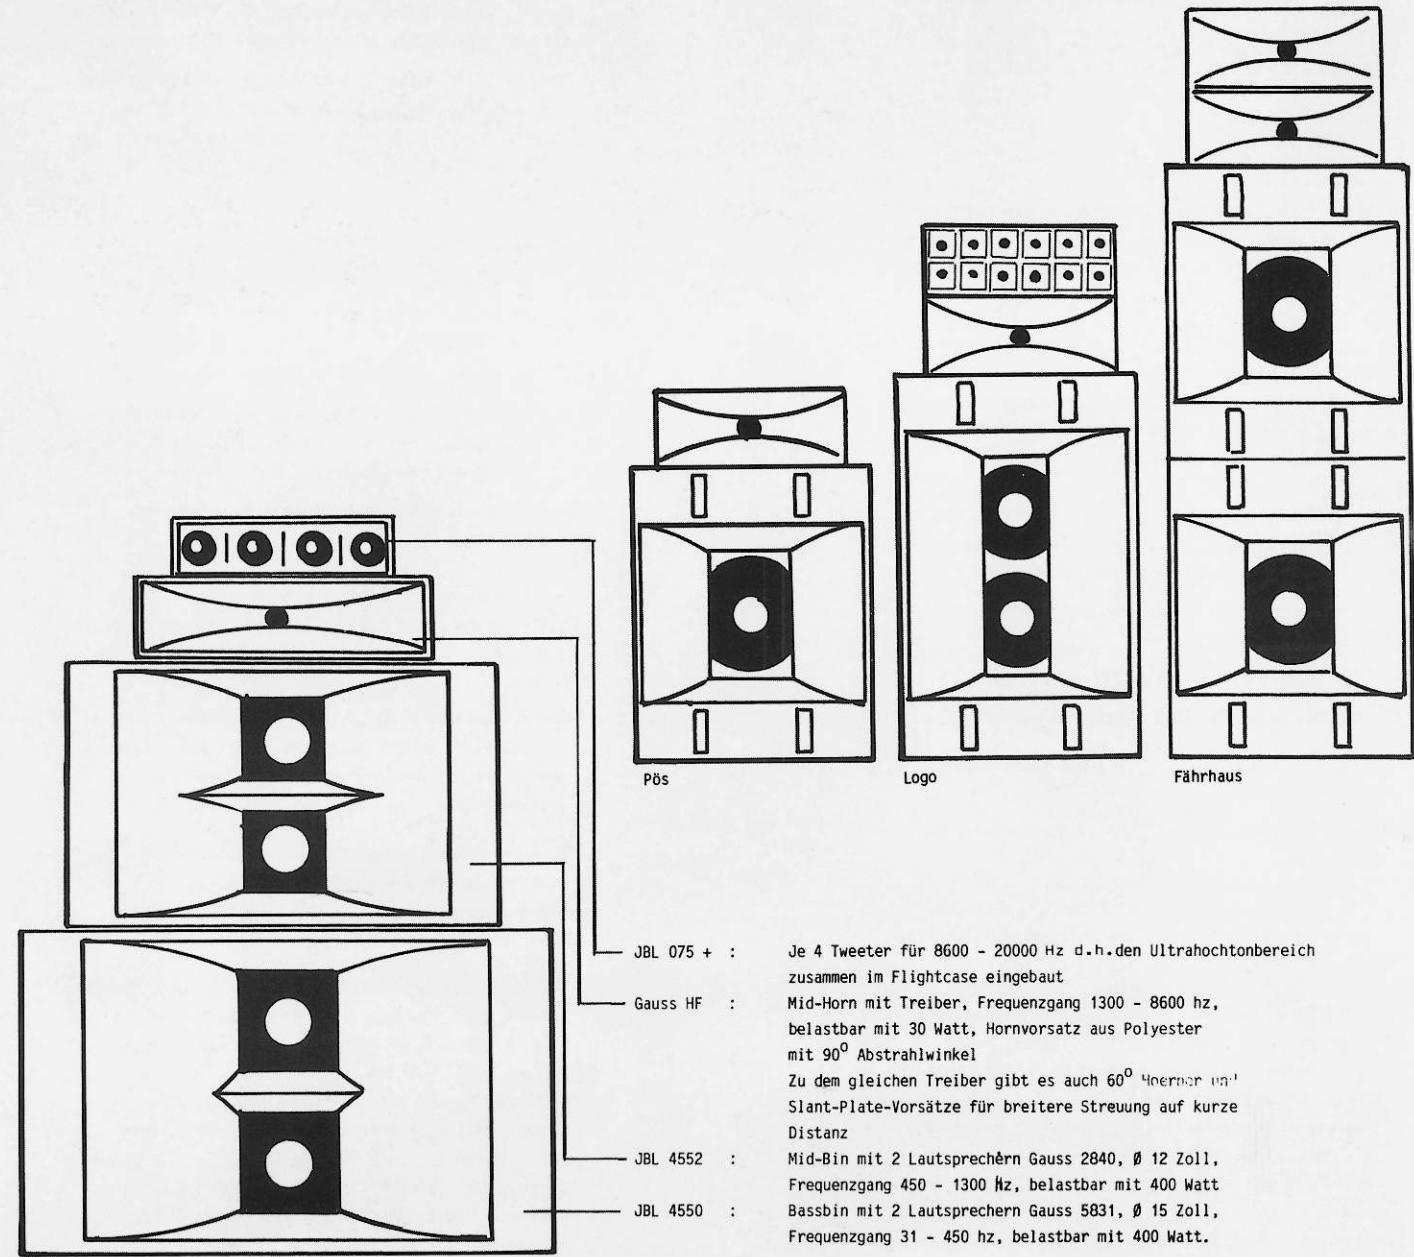

We have already served many, many international concerts and events in FRG, GDR, Poland, India, Holland, Austria, Switzerland, and besides many other the following artists and bands:
